BICYCLE POLICY

Students travelling to and from school, as well as those at school need to feel and be safe. The Department of Education and Training and NSW Roads and Traffic Authority recommend that **children under 10 years of age DO NOT ride bicycles to and from school unless accompanied by an adult. Students in Years 5 and 6 are the only students permitted to ride to school unaccompanied by an adult.**

Skateboards, ripsticks, rollerblades and scooters are not permitted at Redhead Public School unless directed by teachers.

- Children must correctly wear a Standards Australia approved bicycle helmet at all times when in control of a bicycle.
- All RTA road rules concerning bicycles are to be followed. This includes the pedestrian’s right of way on footpaths. The bell should be used as a warning when approaching pedestrians.
- Bicycles ridden to school must be in good, safe working order and bicycles must be fitted with a bell.
- Entry and exit points to Redhead Public School for bicycles are via the Burns Street entrance and the Hutchinson Street entrance.
- Everyone must dismount before entering the school grounds and walk their bicycles whilst inside the school fence.
- Bicycles are to be stored in the bicycle rack / area near the Library. Bicycles may be locked with a chain and padlocked (supplied by the bicycle owner). Bicycles and helmets are brought and stored on site at the owner's risk.
- Redhead Public School provides bicycle safety education for all students through our school's road safety education program.
- Parents will support our road safety education program by instructing their children in the rules of road safety and maintaining their child's bicycle as a matter of routine. (See attached Bicycle and Helmet Safety Checklist and “The Law and Safety Advice for Bicycles, Rollerblades, Scooters and Skateboards.”)
- Students who do not adhere to Redhead Public School Bicycle Policy will be managed in accordance with our Student Code of Conduct. Consequences may include planning room and students not being allowed to bring their bike onto the school grounds for a period of time.

The Principal has the right of discretion to make provision for departure from the policy or the application of the policy in the event of unforeseen and exceptional circumstances.

</tbody>
</table>

What is the right size of bicycle?

The right size of bicycle:
- Has controls within reach
- Is comfortable for the rider
- Has a level seat
- The rider’s feet should just touch the ground when the rider is sitting on the seat
- Handlebars should allow for the arms to be slightly bent as the body leans forward
- The bicycle is the right size if the rider can straddle the crossbar with both feet flat on the ground, otherwise the bicycle is too big and therefore, unsafe. There should be about 3 cm between the bicycle and the rider’s crutch for a medium or lightweight bicycle. For a BMX or mountain bike there should be a 10cm gap. If there is no crossbar, make the test from where the crossbar would be.
